

Please reject the NAB petition 04-160 and I support XM's programming that I pay for. If regular radio was any good, I would listen to it. It is full of aggravating commercials that I hate and I won't listen to regular radio. I pay not to listen to commercial air waves. I feel I should have the right to choose what to listen to. I choose to put my dollars into XM so as to not put any money into local or network commercial enterprises. Leave my XM alone.
